

Solution Requirements (Functional & Non-functional)

Date	25-06-2026
Team ID	23A51A4250
Project Name	Metro Ticket Generating System in ServiceNow
Maximum Marks	4 Marks

Functional Requirements:

Following are the functional requirements of the proposed solution.

FR No.	Functional Requirement (Epic)	Sub Requirement (Story / Sub-Task)
FR-1	Metro Ticket Booking	Select Source Station Select Destination Station Choose Journey Date Enter Number of Passengers
FR-2	Fare Calculation	Calculate Fare Based on Route Display Fare per Passenger Calculate Total Fare Automatically
FR-3	Ticket Request Submission	Submit Metro Ticket Request Generate Request Number (REQ) Generate Requested Item (RITM)
FR-4	Ticket Confirmation	Display Booking Confirmation Show Ticket Details Provide Ticket Reference Number
FR-5	Notification Management	Send Booking Confirmation Email Send Ticket Details to User Notify Successful Booking
FR-6	Digital Ticket Generation	Generate Digital Ticket Create QR Code for Ticket Attach QR Code to Ticket

The screenshot shows a 'Book A Metro Ticket' form within a ServiceNow catalog. The form is titled 'Book A Metro Ticket' and includes a logo. It has several sections: a 'Required Information' section on the right with a 'Book Now' button, a 'Quantity' dropdown, a 'Delivery Time' field, and buttons for 'Add to Cart', 'Save as Draft', and 'Book Now'. The main form area contains fields for 'Passenger Name', 'Email Address', 'Travel Date', 'Origin', 'Destination', 'Journey Type', and 'Via Of Passengers'. There are also fields for 'Amount For Single Journey' and 'Amount Including Return'. A 'Add attachments' section is at the bottom.

implementing the functional requirements above

Non-functional Requirements:

Following are the non-functional requirements of the proposed solution.

NFR-3	Reliability	The system should consistently generate accurate fare calculations confirmations with minimal errors or downtime.
NFR-4	Performance	The system should calculate fares, process ticket bookings, and generate confirmations within a few seconds to provide a smooth user experience.
NFR-5	Availability	The application should be accessible 24×7 through the ServiceNow availability to users.
NFR-6	Scalability	The system should support an increasing number of users, ticket bookings, and metro routes without significant degradation in performance.

FR No.	Non-Functional Requirement	Description
NFR-1	Usability	The system should provide a simple, intuitive, and user-friendly interface that allows passengers to book metro tickets easily without technical knowledge.
NFR-2	Security	The system should ensure secure access through authenticated user accounts, role-based access controls, and secure data transmission using HTTPS protocols.
