Project Name	Metro Ticket Generating System in ServiceNow
Maximum Marks	2 Marks

Solution Fit:

The Metro Ticket Booking System developed on the ServiceNow platform provides a digital and automated solution to overcome the challenges of traditional metro ticketing. The system enables passengers to book tickets online by selecting source and destination stations, journey date, and passenger count through a user-friendly Service Catalog interface.

The solution automatically calculates fares based on predefined route information, eliminating manual calculations and reducing errors. Upon submission, the system generates a digital ticket, creates a request record, and sends booking confirmation notifications to the user. The integration of QR-code-based ticket generation further enhances convenience by enabling contactless ticket verification.

Additionally, administrators can manage metro stations, fare details, and monitor ticket booking trends through dashboards and reports. By digitizing the entire ticketing workflow, the solution reduces waiting time, improves operational efficiency, enhances user experience, and supports scalable metro transportation services.

The screenshot displays the ServiceNow user interface for a request record. At the top, the breadcrumb navigation shows 'Home > My Request - RITM0010028'. Below this, the request title is 'BOOK A METRO TICKET'. A summary bar indicates the item is 'Book A Metro Ticket', requested for 'System Administrator', with a quantity of '1'. The 'Stage' field is currently empty. The main content area is divided into three tabs: 'Activity', 'Attachments', and 'Additional Details', with 'Additional Details' being the active tab. Under 'Additional Details', the following fields are visible: 'What do you want to do Today?' with the value 'Book QR Ticket'; 'Mode Of Payment' with the value 'UPI'; 'Passenger Name' with the value 'Chiru'; 'Email Address' with the value 'Chiru@gmail.com'; 'Travel Date' with the value '2026-07-05'; 'Starting From' with the value 'LB Nagar'; 'Going To' with the value 'Ameerpet'; 'Journey Type' with the value 'single'; 'No Of Passengers' with the value '2'; and 'Amount For Single Journey' with the value '100'. The ServiceNow logo is visible in the top left corner, and a sidebar with icons is on the bottom left.
